Graduate Program

A Master’s degree can lead to doctoral or other professional education, or to advanced positions in business, public service or government. The graduate program in Communication Studies is guided by two interrelated goals. First, that each student has the opportunity to study and conduct original communication research consistent with individual interests and abilities. Second, that each student develop and follow a coherent, rigorous plan of study within the field of communication. Accordingly, a structured advising procedure has been established in the Department to help accomplish these two goals (see “The Graduate Document,” available from the Department, for details). As an integral part of a plan of study, each student will major in one of four primary areas of study:

- Mediated Communication
- Organizational and Instructional Communication
- Public and Political Communication
- Social Interaction

Each student will have at least one additional area of study chosen from the areas above or from a related field(s) within or outside the Department. Specific unit requirements depend on the Culminating Requirement selected (thesis, project, comprehensive examination).

As mentioned above, this program, culminating in the Master of Arts in Communication Studies, is designed for the student who subsequently will pursue a doctoral degree or a professional career. The program is NOT designed for students who wish to train in production or presentational skills, which are taught at the undergraduate level in the Communication Studies Department.

Admission Requirements

Admission as a classified graduate student in Communication Studies is based on the assessment of individual credentials by the Graduate Committee, but requires:

- a 3.0 overall GPA or 3.25 GPA in the last 60 undergraduate units;
- a grade “B-” or better in COMS 167, COMS 168 or COMS 169; and COMS 170, COMS 171, or COMS 172 (or equivalent courses);
- a clearly written statement of purpose for pursuing this particular MA degree. This statement is part of the application to the graduate program and should explain the applicant’s career and academic goals, specifying how the program will help to accomplish these goals, and explain the applicant’s motivation for pursuing those goals;
- three letters of recommendation indicating the applicant’s abilities and potential for completing graduate work successfully. These letters should assess at least the student’s abilities to perform well in academic courses; to conduct research indepen-

dently; to express ideas well in writing and orally; and to think critically, analytically and creatively;

- Graduate Record Exam (GRE) verbal, quantitative and analytical scores;
- an earned baccalaureate degree, and
- one or two examples of writing that indicate research, analytical and/or creative abilities.

Admission Procedures

Applicants are strongly encouraged to apply several months prior to the semester first enrollment is sought. All application materials must be received before any evaluation begins. The Department's admission deadlines are April 1 for fall semesters, November 1 for spring semesters. - an online application for admission; and
- two sets of official transcripts from all colleges and universities attended, *other than CSUS*.

Approximately four weeks after receipt of all items listed above, a decision regarding admission will be mailed to the applicant.

Advancement to Candidacy

Near the completion of course work each student must submit an Advancement to Candidacy form, with his or her major advisor and graduate coordinator's approval, to the Office of Graduate Studies. This procedure may begin upon satisfactory completion of the following:

- all deficiencies in admission requirements removed;
- all undergraduate course deficiencies, as noted as conditions on application response;
