

## Program Description

This program recognizes that some subject matter is more thoroughly explored by drawing on various perspectives and methodologies from more than one discipline. Students, with faculty supervision, engage learning opportunities that encourage combining a range of information and experiences into a challenging individualized learning project. The office administering, guiding, reviewing and monitoring the interdisciplinary efforts, when they cross college or divisional lines, is that of the Dean of the College of Social Sciences and Interdisciplinary Studies. Offerings are listed under the heading Interdisciplinary (ID) in the Class Schedule. Questions pertaining to the establishment and “equivalency” of courses should be directed to the Dean of the College of Social Sciences and Interdisciplinary Studies.
