

Vocational/Technical Education and Workforce Development

College of Continuing Education

Bachelor of Vocational Education

PROGRAM DESCRIPTION

This program is designed for adults who are successful in their occupations but lack a college degree. It provides training for those who wish to train/teach in a vocational/technical/business program in public institutions or private business settings. The Bachelor's degree includes the Designated Subjects Teaching Credential in Vocational Education or Adult Education and the Supervision and Coordination Credential. The program is offered on weekends and uses instructional techniques suited to adult learners.

This program is offered through the College of Continuing Education while its academic home is in the Department of Special Education, Rehabilitation, and School Psychology in the College of Education. It is approved by the California Commission on Teacher Credentialing (CTC), the California State University Chancellor's Office, and the Western Association of Schools and Colleges (WASC).

Career Possibilities

Teacher in regional occupation programs, private post-secondary institutions, community colleges, correctional facilities and adult schools • Trainers and facilitators in public or private industry • School and career counselors • Human resource recruiters and placement personnel • Mediators and labor relations specialists • Educational administrators • School-to-work coordinators • Learning specialists • Administrators, managers and supervisors in public or private industry • Small business owners and entrepreneurs • Consultants in business, industry and education

Eligibility

The BVE degree program requires that students have five to seven years of vocational/technical/business experience in a designated field and the equivalent of one year teaching/training experience in their designated field prior to graduation. Under the Swan Act and upon evaluation by the California State Board of Examiners for Vocational Teachers, degree candidates receive up to 40 elective units for prior job experience, teaching/training experience, supervisory experience, and current professional development and education. In addition, candidates complete general education and graduation requirements for Sacramento State and the Vocational Education Major.

Programs Offered

- **BVE Degree:** Bachelor of Vocational Education
- **Credentials:** Designated Subjects Teaching Credential in Vocational Education / Designated Subjects Teaching Credential in Adult Education / Designated Subjects Teaching Credential in Supervision and Coordination

Requirements • Bachelor of Vocational Education

Units required for the Major: 39

Minimum total units required for BVE: 120

Students will receive letter grades, "A" to "F," for all courses except special problems and field experience for which Credit/No Credit grades will be assigned. Students completing the teaching or supervision credentials will apply to the Sacramento County Office of Education.

In addition to the courses listed, students must receive credit through the Swan evaluation process for past vocational/teaching experience and must be approved by the statewide commission for the degree. Students may receive up to 40 elective units from this evaluation.

A. Required Courses (39 units)

See Education • Special Education, Rehabilitation and School Psychology for complete course descriptions.
