California State University, Sacramento offers its students a unique blend of facilities, programs and activities.

BOOKSTORE, COMPUTER STORE, AND FOOD SERVICES

The Hornet Bookstore carries all textbooks required on campus during the semester. Textbooks are available two weeks before the first day of classes. All special program participants should contact the Customer Service Department before making purchases.

The Bookstore offers a variety of general interest books, reference books, best sellers, study aids, children's books, and magazines. A special order service is provided for books currently not in stock. In addition to books, the Hornet Bookstore stocks merchandise to make life on campus more convenient. These items include office supplies, sportswear, backpacks, art supplies, personal grooming necessities, and snacks. Calendars and greeting cards also are offered.

The Hornet Bookstore is located near Mendocino Hall and next to the River Front Center food service complex. Visa and MasterCard are accepted.

Near the Bookstore is the Copy Graphics Center, which provides a variety of photocopying and graphic services to the campus community. Black and white and color copies can be made on sizes from 8" x 11" to 11" x 17". A full range of colored papers and weights is available. Resume and newsletter services, banners, certificates, binding, folding, and lamination services also are offered. FAX messages can be sent or received (FAX #916-278-5999).

The Computer Store, offering a selection of personal computers, printers, software, disks and supplies, and computer magazines, is also available for students, staff and faculty members. Computer demonstrations, on-site rentals and laser printing are available.

The Store in the University Union offers a variety of greeting cards, gifts and novelty items. There are 14 eateries on the CSUS campus, all providing different menus and types of service. Eating establishments range from full restaurant service in the Sequoia Room to counter service and vending machines in the Roundhouse and Outpost. The Hornets' Nest and Pub both offer salad bars, hot sandwiches, and breakfast as well as daily specials. For those with a sweet tooth, the Ice Creamery features premium quality ice cream, and Union Station serves pastries, cheese-cake, cookies and brownies. Togo's offers a complete range of fresh sandwich selections; Taco Bell serves a variety of tacos and burritos; and Round Table Pizza offers four delicious varieties of Personal Pan Pizza. Other campus restaurants include Burger King; The Coffee House, featuring a mesquite grill and patio seating; and the University Center Restaurant, serving a luncheon buffet Monday through Friday.

Campus eateries are available in all parts of the campus. The University Union on the south side of campus houses the Hornets' Nest, Ice Creamery, Union Station, Sequoia Room, the Round Table Pizza kiosk and the Coffee House. The River Front Center on the north side of campus contains Crumbs, the Pub, the University Center Restaurant, Togo's, Taco Bell and Burger King. The Outpost is located on the west side of the Library, and the Roundhouse is next to Lassen Hall.

For the convenience of students living in the residence halls at CSUS, the Dining Commons offers full meal service, plus their own pizza place and store. Off campus residents may purchase a meal plan.

Catering is available for a full range of events and activities.

CAMPUS RESIDENCE HALLS COMMUNITY

On-campus living in the CSUS Residence Halls can have a great impact on student academic success and personal growth. Not only are the residence halls comfortable and convenient, they offer students ample opportunities to make new friends and be involved in floor, hall and campuswide activities. Best of all, living in a residence hall is fun.

Residence halls are staffed by live-in professionals and trained resident advisors who want to help students succeed. All of our staff are committed to providing the best possible living environment. They organize study sessions, social activities and field trips, and serve as a source of campus information for residents. Personal satisfaction with campus life is largely dependent upon choices that are made by each student. Living on campus can be a very special and rewarding part of the CSUS experience.

The Residence Hall community consists of three-story residence halls, including Sutter, Sierra, Draper, Desmond and Jenkins. Sierra and Sutter halls are designated primarily for upper division and graduate students. Draper, Jenkins and Desmond halls are designated primarily for lower division students. Each hall provides living accommodations for 200 - 250 students and has a lounge, study rooms and kitchen, plus a recreation room. Each hall operates a central resource desk. Mail is received on campus and distributed to each individual hall.

Each standard double room (about 11 feet by 13 feet) is equipped with two single, extra-long beds, desks, dressers and closets. Telephone service is arranged with the local telephone company and refrigerators are available to rent. Most rooms in the residence halls are designed and furnished for two students. There are single rooms in Sierra and Sutter and a limited number of double rooms offered as super single rooms in all halls

except Desmond Hall, which has five pairs of double rooms with a connecting bath called deluxe rooms. Singles, super singles and deluxe rooms are assessed an additional premium rental fee.

All residence halls are coed. Desmond, Sierra and Sutter halls are coed by alternate room on each floor with separate male and female bath facilities. Draper and Jenkins halls have men and women on separate corridors of each floor with separate bath facilities. Students residing in the residence halls are required to purchase a meal plan. A centrally located Dining Commons offers 19 meals each week. Residents may choose either Plan A (an average of 10 meals per week) or Plan B (an average of 15 meals per week.)

Applying for on-campus housing is easy and free. You need not be admitted to CSUS before applying for housing; you do need to contact the Office of Housing and Residential Life directly because applications for housing are not automatically mailed to prospective students. Fall applicants should apply beginning the preceding November 1, and spring applicants beginning August 1. All housing applicants will be mailed a Residence Hall License Agreement for the academic year (Fall/Spring) beginning the first of May. Spring-only applicants will be mailed the agreement the first part of November.

The CSUS Office of Housing and Residential Life is available to answer your questions from 8 a.m.- 5 p.m. Monday - Friday (7:30 a.m.-4 p.m. during the summer) at (916) 278-6655.

CSUS ALUMNI ASSOCIATION

The CSUS Alumni Association, organized in 1950 to support alumni and the campus community, is open to all former and current students. Annual dues are \$35; life memberships are \$350. A joint-spouse plan allows a married couple, where one is

eligible for membership, to join for \$45 annually or obtain a life membership for \$400. Current students may join the Student Alumni Council (SAC), which is affiliated with the CSUS Alumni Association. SAC bridges the gap between students and alumni. Dues are \$10 per year.

The Association maintains an active mailing list of graduates. Its activities include a student scholarship program, the President's Concert, Homecoming, the Distinguished Service Awards, and special projects. Senior Achievement Awards are presented each year by the Alumni Association to seniors who have demonstrated high scholastic achievement and leadership qualities, and who have contributed in a positive way to the enrichment of campus life.

The Association supports the following alumni chapters: Anthropology, Art, Biological Sciences, Business Administration, Communication Studies, Criminal Justice, Education, Engineering and Computer Science, Geography, Government, Health and Physical Education, Hong Kong, Human Environmental Science, Interior Design, La Raza, Music, Nursing, Recreation and Park Administrators, San Joaquin Valley, Social Work, Speech Pathology and Audiology, Theatre Arts and University Singles.

For more information about the CSUS Alumni Association call (916) 278-6295 or (800) SAC-GRAD.

KXPR, FM 90.9 AND KXJZ, FM 88.9

KXPR and KXJZ are professionally operated Public Radio stations, licensed to California State University, Sacramento as a public service for the Sacramento region.

KXPR features classical music, while KXJZ provides a jazz and news/public affairs format.

KXPR/KXJZ also provide a broad-based internship program for qualified CSUS students who wish to gain experience, for academic credit, by working in a professional broadcasting environment.

LASSEN HALL (LSN)

Lassen Hall has been extensively remodeled to provide improved services, resources and information to help CSUS students achieve their academic goals. Many staff who can answer questions and solve non-academic problems also are housed in Lassen Hall. Students are encouraged to become familiar with these services.

Lassen Hall is located directly behind Sacramento Hall. On the first floor of Lassen, you will find the following offices:

- Academic Advising Center
- Admissions Counseling/Evaluation
- Admissions and Records
- Adult Reentry Services
- Cashiers
- Disbursements
- Financial Aid Office
- Services to Students with Disabilities
- Veterans Affairs

On the second floor you'll find:

- Academic Achievement Center/EOP
- Career and Testing Center
- International Programs
- Learning Skills Center
- University Cooperative Education

The third floor houses the offices of the Vice President for Student Affairs, the Assistant Vice President for Educational Equity and Student Retention, the Women's Resource Center, and University Outreach Services.

MULTICULTURAL CENTER

The CSUS Multicultural Center was established in 1990 as the result of widespread University interest and the commitment of the administration, students, and faculty to a campus environment which supports all the racial and ethnic populations and which celebrates human diversity.

The Center reflects and demonstrates the values inherent in a supportive multicultural university. It has evolved from a sincere commitment to improving education resources supporting the recruitment,

retention and graduation of under-represented groups and linking the University and the community. The Center strives to provide an environment which encourages significant interaction among students, faculty, staff and the community. As defined by the University, all groups have culture. Thus, activities include programs related to all heritages.

A yearly calendar of events listing upcoming activities is posted in the Multicultural Center. For more information, contact the Multicultural Center, first floor, University Library, 278-6101.

OFFICE OF INTERNATIONAL PROGRAMS

To assist in the internationalization of the educational experience offered at CSUS, the Office of International Programs coordinates many international educational activities, opportunities, and programs, and serves in an advisory capacity for various international development projects.

International students, scholars, and faculty from more than 100 nations come to CSUS to pursue degrees and to engage in research and teaching. With campus offices and departments, community groups, community colleges, numerous sponsors and governmental agencies, and orientation programs and individual counseling, the O.I.P. helps their integration into campus and community life.

Study Overseas Programs

A variety of overseas study opportunities are available, including the CSU International Programs and various CSUS one-to-one exchanges, which allow current CSUS students to earn resident credit while studying overseas. The Office of International Programs provides information on Fulbright grants and other sources of support for study, work and travel opportunities. See page 31.

Faculty International Services

The Office of International Programs promotes faculty exchanges through formalized agreements with

institutions throughout the world and counsels faculty on Fulbright, Resident Director, short-term teaching, and workshop opportunities overseas. The Director assists faculty in obtaining grants for international curriculum and program development.

Community Outreach

By acting as a liaison for various groups such as the Sacramento Council for International Students and the World Affairs Council, the O.I.P. makes available to the campus and the community the wealth of international resources located in the capital of California.

In cooperation with the President's Office, the O.I.P. acts as host and coordinator for the visits of many distinguished international visitors to the campus, including educators, government officials, and scholars.

Call 278-6686 for more information on the CSUS Office of International Programs.

RESEARCH AND GRADUATE STUDIES CENTER

The Office of Research and Graduate Studies (RGS) oversees both the externally funded research and sponsored project (RSP) activity performed on the campus and administers the graduate programs (Graduate Center) offered at CSUS.

RSP facilitates the development of the faculty and staff in ways that enhance the academic programs at the University and promotes research and other scholarly activity. It accomplishes this mission by assisting faculty and staff in locating and securing external funding for the support of scholarly activity and research for undergraduate and graduate education, and by recommending the establishment of Centers, Institutes, and other research and service units for the University to accomplish its goals and priorities.

RSP identifies sources of external funding for research, the development of curricula, for training programs, for the purchase of instructionally related equipment, and for faculty to maintain

currency in their respective disciplines. Once funding sources are identified, the office works closely with faculty and staff in their preparation of an application, and help is provided in all phases of proposal development, including budgeting, editing, University clearances and forwarding the final documents to the potential funding agency. To assist faculty, the office has prepared the *CSUS Proposal Development Handbook* and the RGS home page provides access to the latest information on funding opportunities. Support for research, other scholarly and creative activities, and professionally related travel is also provided. The office sponsors an annual research competition for undergraduate and graduate students and also plays a major role in making possible the dissemination of research results and scholarly activities at regional and national professional conferences. On the campus, RSP arranges the meetings of the Association of Research Scholars, an organization of more than 300 faculty members.

The Graduate Center

The Graduate Center is a contact point for both new and continuing students with more than 4,800 admission applications processed each year by center staff. The major focus is to help departments identify and admit high quality candidates. Graduate Center staff are also available to serve and assist graduate students throughout their graduate careers including advancement to candidacy, applications for graduation and completion of the culminating experience. In addition to numerous workshops scheduled during the year, a *Guide to Graduate Studies*, published by the Graduate Center, contains information regarding graduate policies and procedures to assist students with completion of their graduate programs. Some graduate assistantships and teaching associate positions are available through individual departments.

Center for Teaching and Learning

The primary functions of the Center for Teaching and Learning (CTL) are to support and enhance quality instruction. Through workshops, colloquia and other resources, the CTL assists faculty in exploring opportunities that enable them to adapt to, as well as guide changes in the intellectual, technological and cultural makeup of the campus community.

UNIVERSITY COMPUTING, COMMUNICATIONS AND MEDIA SERVICES

University Computing, Communications and Media Services has three units which serve the campus community.

University Computing and Communications Services (UCCS)

University Computing and Communications Services is responsible for all University-wide computing and data communications equipment, software and networking. UCCS operates major computer systems accessible to CSUS students, faculty and administrative staff. Located on the third floor of the Science Building are an IBM 3090/150E, an IBM 4381/492E, Digital Equipment Corporation 9210, 8810, 3510 clusters, several Hewlett Packard 9000/735 computers and many Pentium PCI platforms. The National Science Foundation Cray supercomputer in San Diego also is

available to CSUS faculty and students for both instructional and research purposes. In addition, there are more than 2,000 user workstations located throughout the campus for student and faculty use.

All centrally supported campus computers are tied together by both a campuswide asynchronous communications network and wideband fiber optic based backbone. These networks support instructional, research and administrative functionality and provide connectivity to workstations located in campus instructional laboratories, and faculty administrative offices. In addition, a dedicated data communications dial-up network is maintained by the University for students and faculty for off-campus access to University computing facilities.

The high speed fiber optic-based data communications network provides connections between local area networks in offices and laboratories and other computing resources both on and off campus. The UCCS backbone network is linked to the Internet, connecting the University to all major educational and research sites in the world. Internet connectivity allows UCCS to offer a host of services in addition to basic workstation-to-computer access. Some of these services include electronic mail delivery, distributed availability of data and programs

via interconnected file servers, UseNet news feed (a worldwide electronic bulletin board and information service), and remote file access to distant sites (including massive archives of Macintosh and PC-compatible freeware and shareware) and World Wide Web (www) access.

University student computing laboratories are open early morning through late evening, including weekends. Major instructional computing laboratories are staffed with lab supervisors to assist students and faculty. Various types of microcomputer workstations, sophisticated graphics displays, and plotters are available for student and faculty use. Students are encouraged to establish a UCCS SaLink e-mail account and Internet access account.

A Faculty/Staff Resource and Training Center and an extensive microcomputer software library are available to faculty and staff for evaluation and training purposes. A staff consultant is available in the Resource and Training Center six hours each day, Monday through Friday.

University Media Services (UMS)

University Media Services (UMS) provides a wealth of media production and creative services, distance education opportunities, and classroom audio-visual resources. Its primary purpose is to support and complement the needs of faculty and students in the teaching/learning process.

UMS facilities include two television production centers (one dedicated to the Department of Communication Studies for training students), video post-production editing systems, four studio classrooms, satellite and video compression conferencing services and a closed circuit television network linking more than 400 classrooms and laboratories.

Students enrolled at CSUS may take advantage of a variety of media hardware and equipment resources available from the UMS Classroom Service department

located in the lower level of the Library South Wing, Room 12. Traditional audio-visual equipment is available for checkout to students Monday through Friday during normal business hours. In addition, UMS makes available a student/faculty workroom providing opportunities for audio production and duplication, videotape editing and duplication, and photographic slide production.

Telecommunications Services

University Telecommunications Services (UTS) is responsible for the campus internal telephone system, voice mail services; communications infrastructure; installation, repair and maintenance; operator services; directory services; and telecommunications call accounting and cost recovery.

UNIVERSITY LIBRARY

The six-story University Library, with 300,000 square feet of floor space and seating for 4,000 students, is a primary educational facility. In addition to its holdings of about one million volumes and thousands of maps, slides and pamphlets, the Library maintains a collection of about 4,000 magazines, technical and scholarly journals, and newspapers.

Library collections include millions of pieces of microforms and non-print media. The University Library is a depository for California State publications and for selected United States government materials. Many of the documents and publications of the United Nations are received on microtext.

Library collections and services are divided into three reference areas: Humanities; Science and Technology; and Social Science/Business Administration/Education/Psychology. Each has a reference desk staffed by professional librarians to help make the Library as easy to use as possible, a reference collection, index and abstract areas, open book stacks, study carrels, and seating areas. Periodicals and microforms are consolidated into one large room on the third floor.

(Periodicals earlier than 1975 are shelved on the lower level.)

On the Main Floor, the Check-out/Renewals/Information Desk provides general directional assistance and referral to students. Orientation tours are conducted at regular intervals during the initial weeks of each semester. These tours are an essential introduction to the location of materials and services within the Library. Subject oriented sessions and other forms of library instruction are offered by the reference departments. Numerous guides and bibliographies are available that describe the Library collections and services.

The Library Media Services Center provides individual listening and viewing facilities for videocassette, audiocassette, slide/audio, and filmstrip/audio, and a collection of software, and multimedia materials.

The Curriculum Collection, located on the second floor, contains sample textbooks, courses of study, a juvenile collection, and other materials related to elementary and secondary instruction.

Other special Library facilities include computer-assisted reference services, databases available via CD-ROM and on-line technologies, reserve book area, map room, photocopy service, slide collection, group study rooms, and University Archives. Terminals for the on-line catalog – EUREKA – are located on all floors. This catalog also can be searched from home, office or via Internet. EUREKA serves as a gateway to other databases and systems, such as MELVYL, FirstSearch and InfoTrac. There also is a computer lab for student use.

Acquisition of materials and development of services are adapted to changing and expanding needs of the University program of instruction. A comprehensive Collection Development Policy guides these efforts.

Items not owned by the Library can be obtained through an inter-library loan and document delivery service. CSUS can borrow from the resources of the California State

Library in Sacramento, the regional Mountain Valley Library System, the University of California and California State University systems, and many of the libraries throughout the state and nation. This service is usually provided without a fee to students, faculty and staff. Telefacsimile technology supports these efforts.

The Reserve Book Room is where high-use materials are kept on reserve. Materials are listed by course number and professors' names and are available only to CSUS students, faculty and staff. (See Appendix I for Library Policies and Procedures.)

UNIVERSITY UNION

The University Union provides activity programming and lounge, meeting, recreational, and food services for the entire campus community, as well as offices for the Associated Students Incorporated.

University Union facilities and services include:

- The Hornets' Nest Cafeteria
- Music Listening Rooms
- Billiards, ping pong areas
- Art Exhibits
- Information Desk/News Stand
- The Store (with gifts and supplies)
- The Student Activities Office
- The Coffee House
- Ticket sales, check cashing and typing service
- Legal Aid Services
- Meeting, catering and special event facilities
- Student government offices
- The Sequoia Room (table service dining)
- UNIQUE Programs
- The Sign Shop
- Peak Adventures Outdoor Recreation

The Union encourages participation in its wide range of programs and services by all segments of the University. Here students extend their involvement in the educational environment by sharing their talents, interests and ideas with fellow students, alumni, faculty and staff.
